A summer to remember

BRILLANTMONT
International School

Lausanne, Switzerland

educating young people since 1882

Welcome to the Brillantmont summer family

Welcome to Brillantmont: family owned since 1882

“We are proud to welcome you to Brillantmont, which was founded by our great-grandparents in 1882. Over five generations, our school has forged an excellent reputation in the field of education. This is attested by our school’s accreditation by the “Council of International Schools” and the “New England Association of Schools and Colleges.” Each new school year, we welcome more than a hundred and thirty young people from all parts of the world who follow a challenging secondary education which prepares them to enter the most prestigious universities in the world.

During the summer vacation, our intensive course of French or English, with a wide range of sporting and cultural activities is a great opportunity to learn languages, discover Switzerland and make friends from all over the world. It is also a great introduction to life in a boarding school. Enjoy your time with us and welcome.”

Where are we?

Brillantmont is in Lausanne, in the French speaking part of Switzerland. Geneva International Airport is 40 minutes away. You will love Lausanne! It is a safe, attractive university city with many sports and leisure facilities. The old town is very pretty and there are many interesting places to visit. The setting is spectacular since the city overlooks Lake Léman (often called Lake Geneva) and the Alps.

Brillantmont is five minutes' walk from the city centre in a safe, quiet neighbourhood. You will live and study on the campus, which is made up of eight attractive buildings. You can sit and relax with your friends in the large gardens or enjoy playing table tennis, tennis or basketball in the grounds. We also have a fantastic gymnasium where you can play many sports. All the buildings and classrooms are equipped with the latest technology and the wireless campus offers a stimulating learning environment.

learning languages in small classes

Learn a language and open yourself to other cultures!

Every morning from Monday to Friday you will study French or English. When you arrive, you will take a test to determine your class level. You will be in a small class with an average of 10 students. We have classes at all levels, so whether you are a beginner or an advanced student, we have a class for you!

In the first period, you will work on grammar and structure. After break, you will change teachers and work on communication skills and oral fluency. Your teachers will make learning fun!

You will have homework occasionally and at the end of the week, a short test to measure your progress. When you leave Brilliantmont, you will receive a certificate with teacher grades and comments. We are confident that your language skills will improve during your stay.

On Wednesday afternoons you will go with your class and teacher to visit a local attraction. You will participate in a workshop and will be able to use your language skills in a fun way. For example, at the chocolate factory, you learn about how chocolate is made and then you get to taste it! After the visit, you will meet up with all the other students by the lake for team games, swimming and a barbecue.

beautiful, spacious rooms

Happy and safe in the Brillantmont summer family

The Summer Course is under the same Direction as the school year and each member of staff wants every single student to feel safe and happy at Brillantmont. Our enthusiastic, experienced teachers are with the students 24 hours a day, every day and are ready to help them at all times. Nursing and medical staff are always on-hand to deal with any problems and the university hospital is five minutes away.

You will live in a building with other students of the same age and gender and will share a room with one or two other students from a different country. The rooms are large and many have a view over the lake and mountains. Sharing a room means that you will be able to practise your languages, discover other cultures and form lasting friendships. By the end of your stay, you will have friends from all over the world.

A teacher lives on your boarding house floor and is there to look after you, making sure you are happy, settled and secure. He/she will also help you use the laundry facilities, which are free of charge.

At meal times, you will eat with your friends in the dining room. Vegetarian choices are available and if you have special dietary requirements, our chefs will make provision for you. Your teacher eats at the head of the table and the meal is served. Meals are not rushed: we want you to eat healthily, properly and to consider mealtimes as a time for exchange and discussion with others on your table.
